BOURBON

JIM BEAM, KENTUCKY STRAIGHT BOURBON € 8,00

The story of the Beam family is one of seven generations, more than 200 years, countless challenges and one goal; to make the best bourbon in the world. So settle in, pour yourself a bourbon and prepare to travel back in time with the First Family of bourbon.

Elegant. Smooth. Refined. That's what 4 years of aging in newly charred American white oak barrels does to our bourbon. But every drop is worth the effort and Jim Beam loves the idea of sticking to their great-great-grandfather's recipe.

MAKER'S MARK € 11,00

Bill Samuels Sr., simply wanted a whisky he would enjoy drinking. That's why Maker's Mark is made with soft red winter wheat, instead of the usual rye, for a full-flavored bourbon that's never bitter or hot. To ensure consistency, we rotate every barrel by hand and age our bourbon to taste, not time. Each and every bottle of Maker's is still hand-dipped in signature red wax at Maker's Mark distillery in Loretto, KY, just like Bill would have wanted.

KNOB CREEK

€ 14,00

There's no faking full bourbon flavor. It has to be earned.

So that's what they do in Clermont: they earn it.

Made with the finest grains and finished by meticulously aging their whiskey in white oak barrels with maximum char, for an unmistakable richness and signature sweetness.

It's the natural way. And there's just no cheating nature.

BASIL HAYDEN'S

€ 15,00

This style of bourbon was inspired by 1792 whiskey

pioneer Meredith Basil Hayden Sr., a rye farmer from

Maryland who moved to Kentucky and began distilling.

He chose to distill his bourbon with a higher percentage of rye and Booker set out to create a similar high-rye

mash bill that would offer the same refined, approachable taste profile.

At Waterproof they appreciate the outdoors, the rain and the pour. With elaborate raindrops on the yellow label and a rubber neck tag, Waterproof clearly takes inspiration from the Scottish inventor Charles Macintosh and his invention 'waterproofing' and the subsequent Mackintosh jacket or Mac (the raincoat). It is about time he is celebrated along with the rain that they are so dependent on to make whisky.

JULIETTE

A semi-soft goat cheese with an orange blush, created during a cheese refiners collab. After Frederic had been thinking about it for quite some time, Van Tricht and cheese factory Karditsel had this luminous idea of adding colour to the cheese with Annatto (derived from the red seed of the South American achiote tree). The cheese itself is made in Limburg from raw biological goat's milk. Its taste is delicate, the texture smooth and creamy. A tribute to Juliette, Frederic's grandmother who founded the business in 1970.

BRILLAT-SAVARIN

Triple cream cheese of raw cow's milk from Île-de-France. The paste is sweet-and-soft and pleasantly tasteful. Cream is added to the milk to make it extra thick and so the cheese comes out rich and buttery. It is produced in Seine-et-Marne, a department in which you'll find both the countryside and the Parisian banlieues. A region that is also the home of Brie de Meaux and Brie de Melun. This particular cheese saw the light of day, not too long ago, somewhere in the 30's and is named after a famous French foodie.

CAMEMBERT 3 LATTI

Italian-style camembert. Made from three types of pasteurized milk: cow's, goat's and sheep's. Exquisite taste and texture, from a small production in the Piemonte region.

ALEX

This Alex is a semi-hard cheese from the Allgäu region in southern Germany. Think of a typical mountain cheese, flooded with taste after 9 months of ripening. The rind is covered in a mixture of cinder and elderflower syrup. While the cheese refiner, his very first cheese creation in hand, was on his way to a shop in Munich to present it, there was still no name for it. In the end, he named the cheese after the train that got him there: the Allgäu Express, or in short, Alex.

BOOKERS VINTAGE

A celebration of the Irish Cheddar cheese from Cork. This large block of cheese, think 20 kg, is cut into four pieces, after which each of them matures separately. This, to create a more profound complexity. Made from microbial rennet, from raw milk. Aged for 18 months.

BURONNOIX

French cheese, type Murot, from pasteurized cow's milk. The cheese is refined in cellars and washed in nut liqueur and it has gone through a ripening process of minimum 3 weeks.

HERVE LINGOT

From the cheese refinery Le Vieux Moulin in Herve. This is the only Belgian AOP cheese and the only raw milk Herve to be found. Tangy in taste and with a rind that is washed multiple times in briny water.

BIO BLEU FUMÉ

The Bio Bleu was created upon the request of cheese refiners Van Tricht as the Pas De Bleu's little brother. It is a quirky blue cheese, based on biological raw cow's milk. This cheese is made by the cooperative cheese factory Het Hinkelspel in Sleidinge, East Flanders. Several farmers in Flanders Fields provided the milk for it. The cheese has a 6 to 8 weeks ripening time, after which it is naturally smoked for 4 hours at low temperature, on beech and oakwood.
